

Anaconda安装与Hello-world

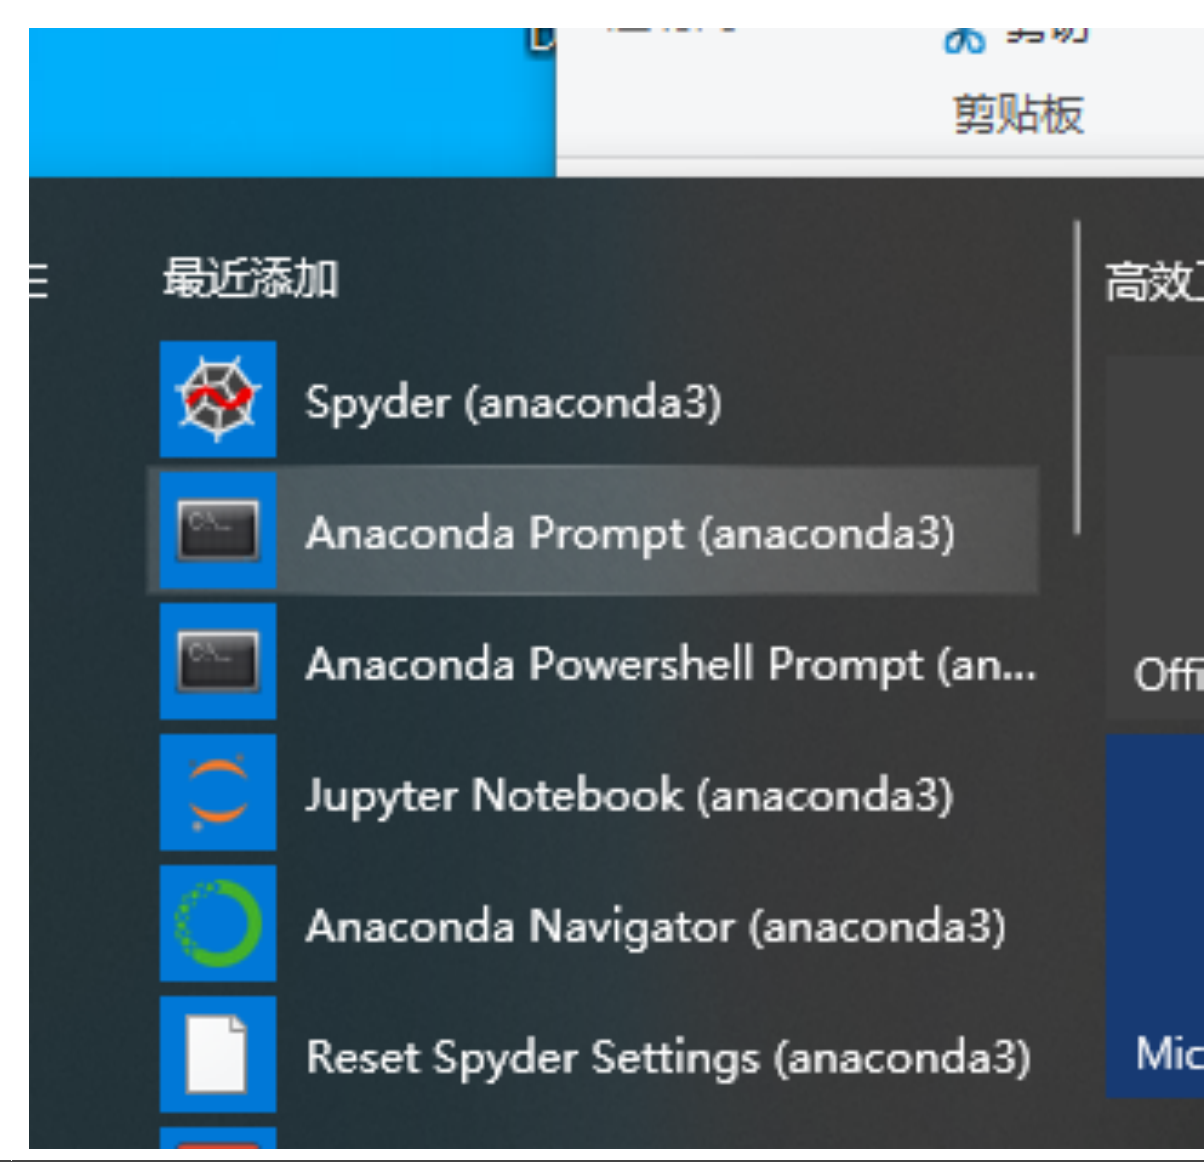

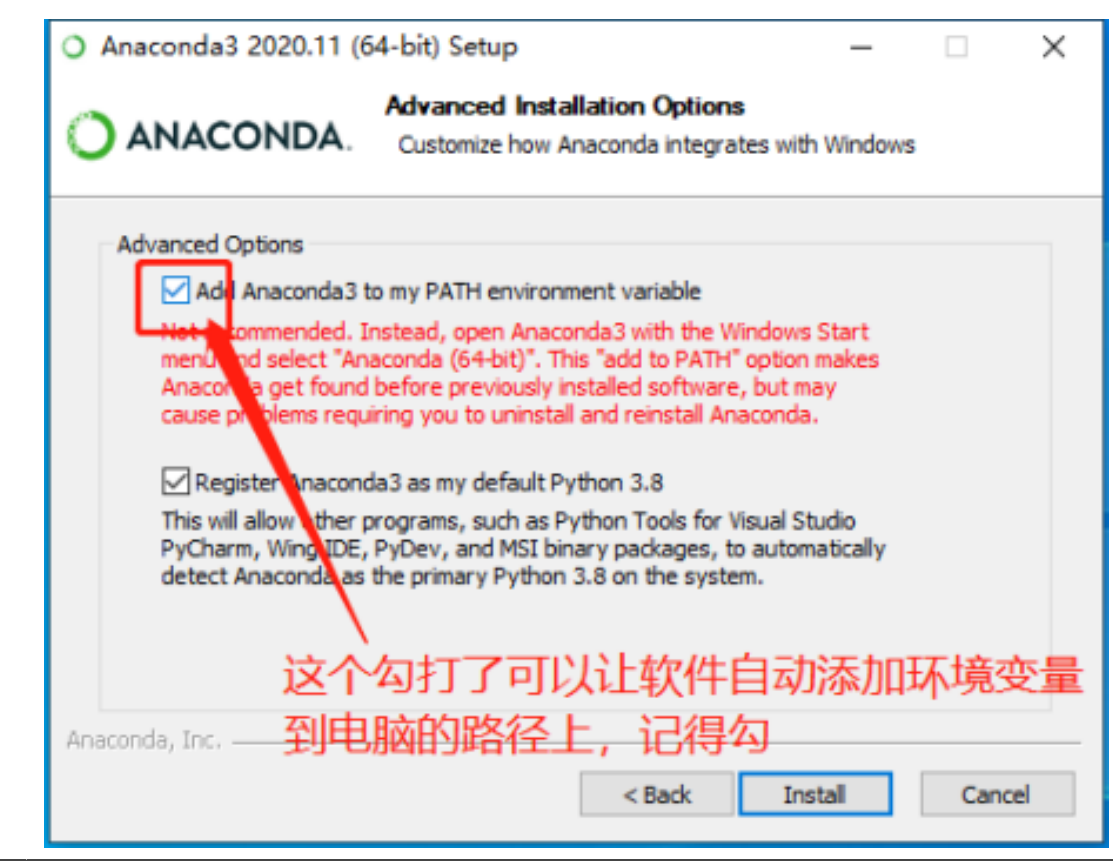

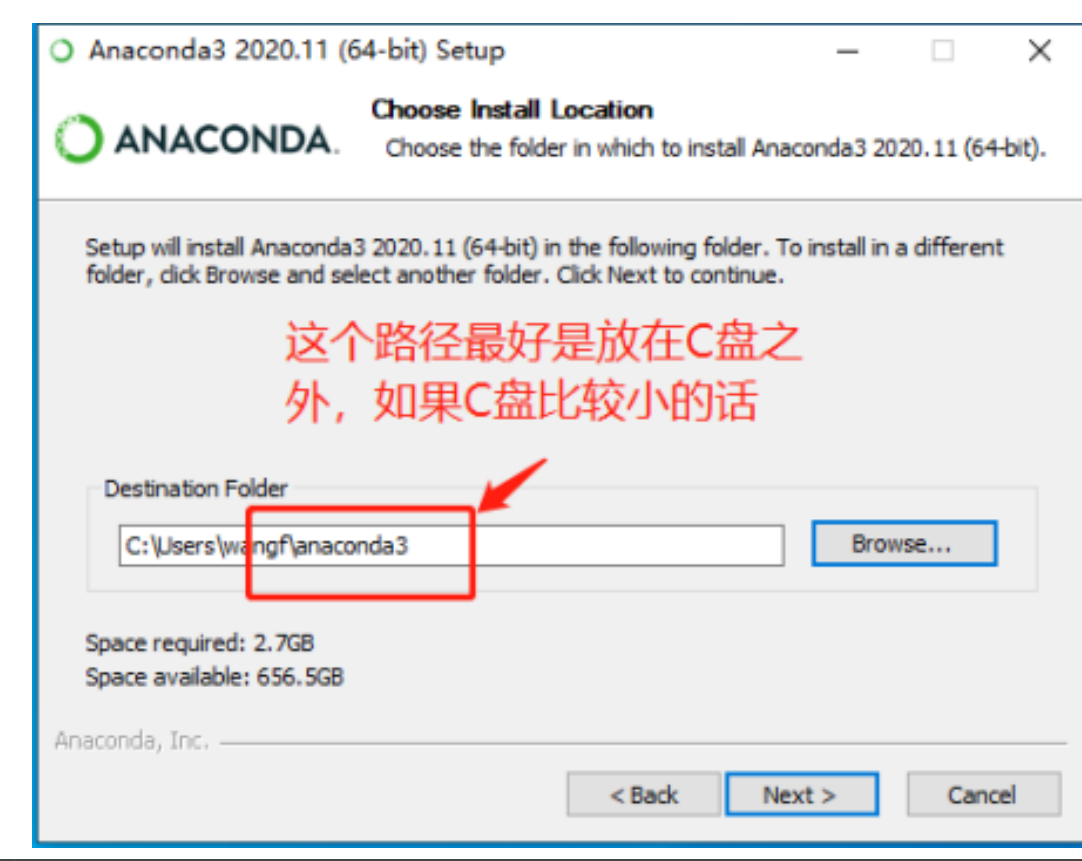

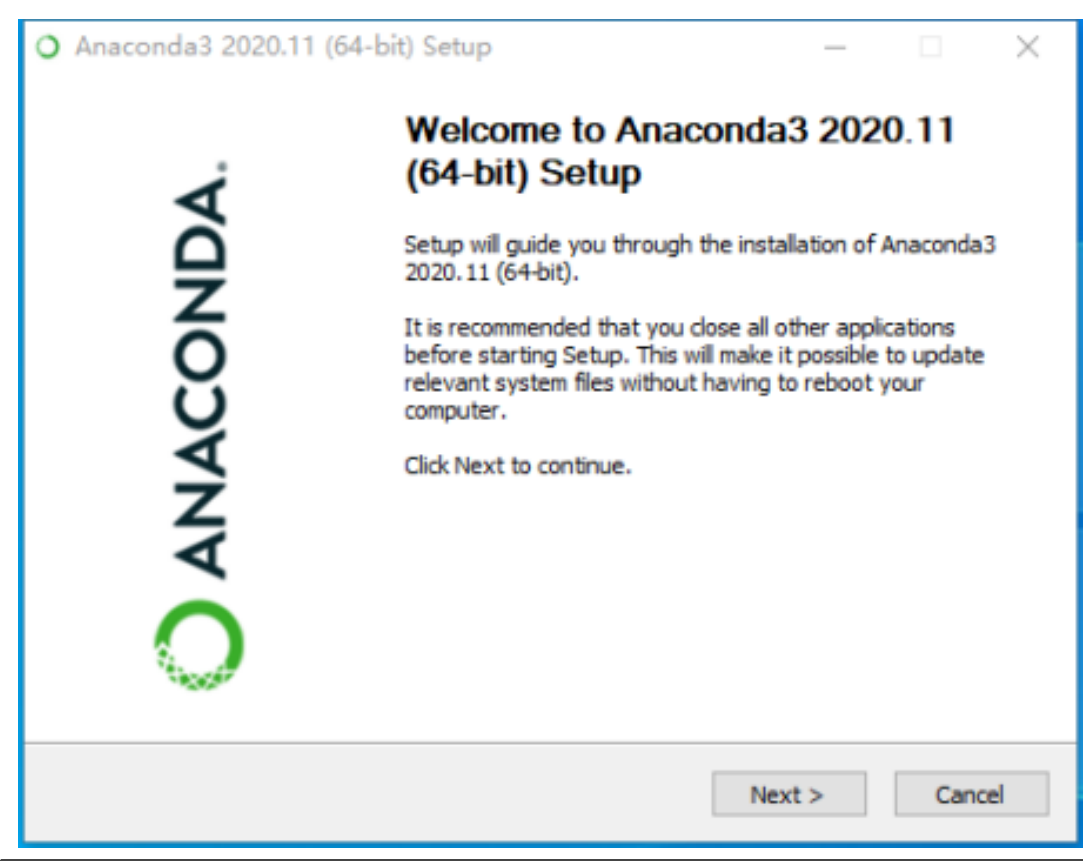

官网

https://www.anaconda.com/

下载

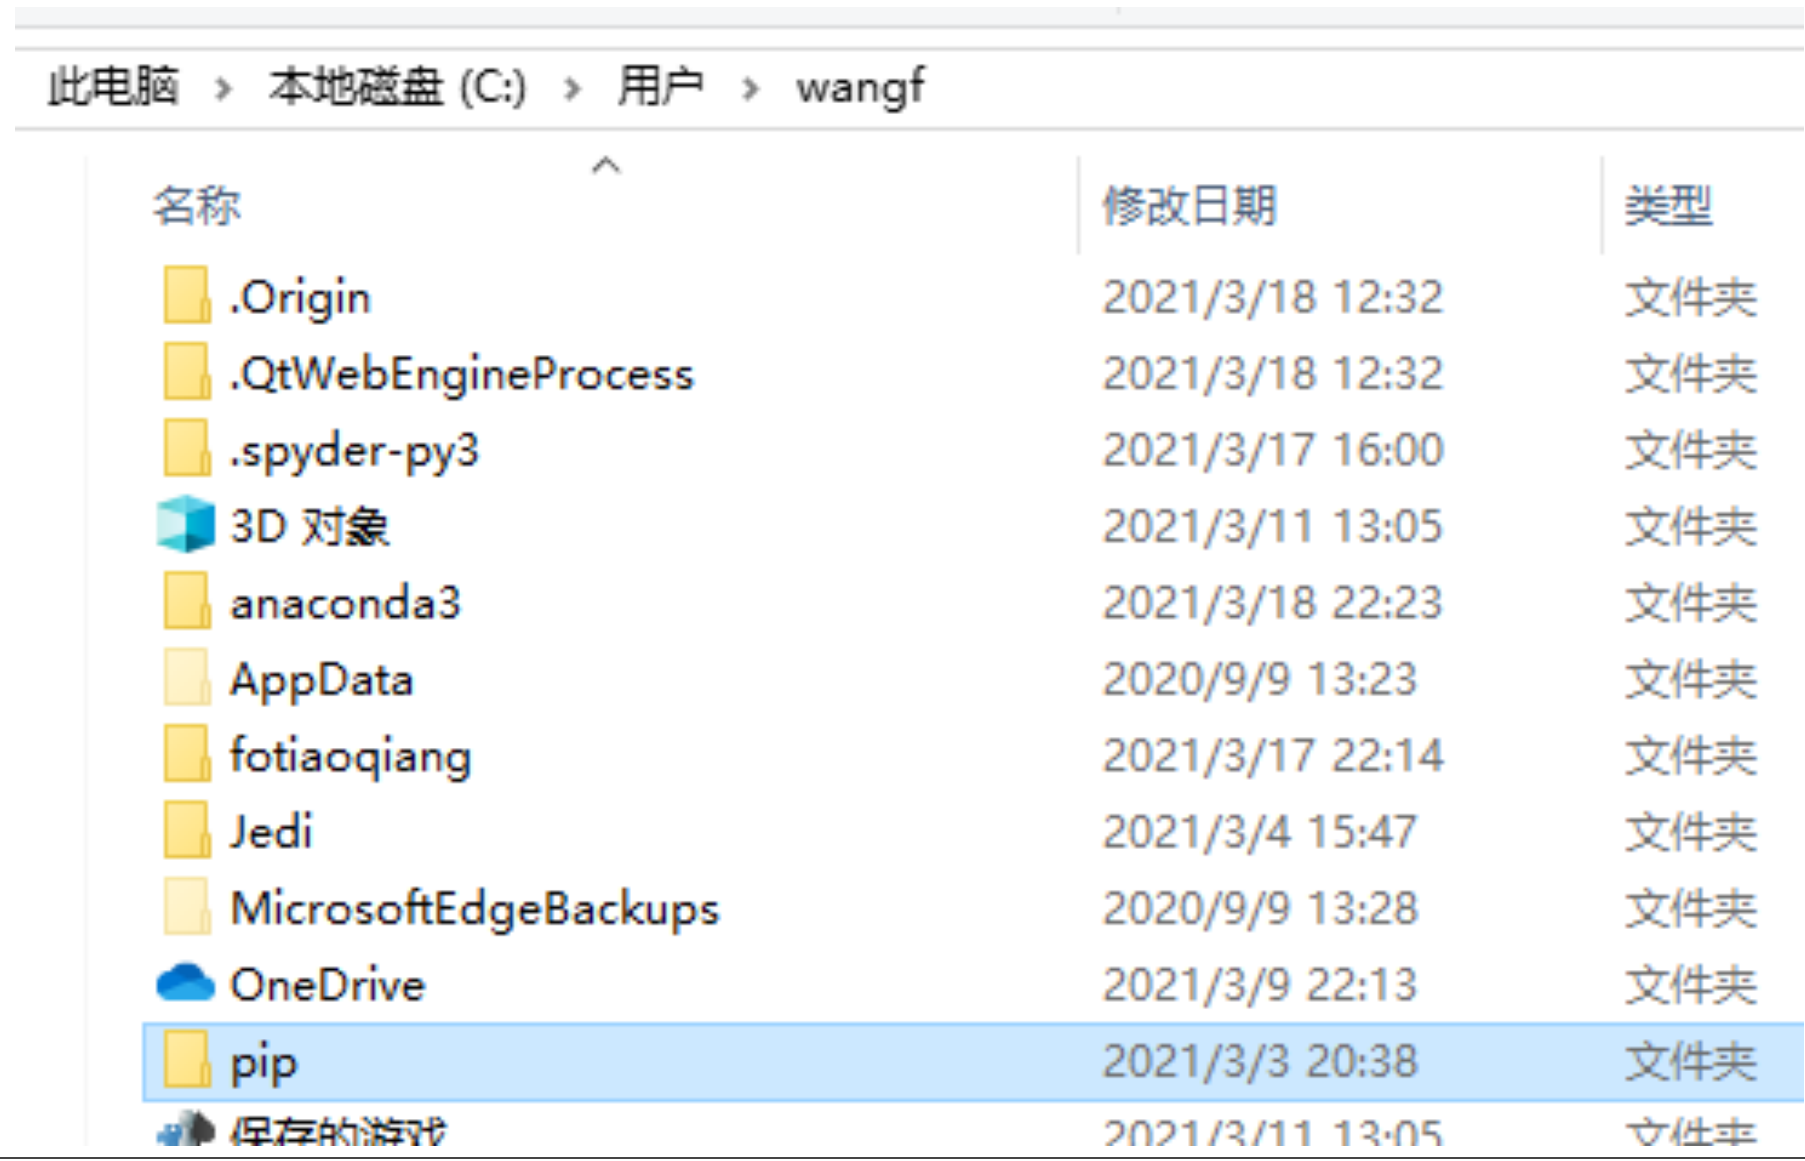

安装

Hello-world

print("Hello") 子主题

更换国内pip源

[global]
trusted-host=mirrors.aliyun.com
index-url=http://mirrors.aliyun.com/pypi/
simple/

更换conda源

```
conda config --add channels https://mirrors.tuna.tsinghua.edu.cn/anaconda/pkgs/main/  
conda config --add channels https://mirrors.tuna.tsinghua.edu.cn/anaconda/pkgs/free/  
conda config --add channels https://mirrors.tuna.tsinghua.edu.cn/anaconda/cloud/conda-forge/  
conda config --add channels https://mirrors.tuna.tsinghua.edu.cn/anaconda/cloud/pytorch/  
conda config --set show_channel_urls yes  
conda config --get channels
```
